We believe in helping our residents achieve and maintain their best possible mobility. Our restorative therapy programs are free and are intended to help our residents achieve success in making the transition from daily intensive therapy to requiring less assistance. Innovate Rehab & Wellness offers three distinct rehabilitation services include speech, occupational and physical therapy with the goal to rehab back to the prior home environment. We take pride in our success stories which include individuals who have been able to return to a more independent setting, including returning to home. Our therapists encourage participation in personalized care plans to support and encourage individuals to reach their full potential. Our aggressive discharge planning ensures an individual has all the adaptive equipment, home modifications, and training to be successful once they return home.
